LOCATION

319 Plume St., Norfolk, VA

Parking options are available
at MacArthur Mall and
surrounding parking garages
- Meet at MacArthur Square

PROJECT DESCRIPTION

Moving into the firm's new home this year will be a defining transformational point in time for VIA. As a BETA pilot program site for Siemens, the building will be a live model for building automation and controls with dashboard read outs located in the public area of the first floor for everyone to see. The first floor of the building will support VIA's day to day internal meeting and social space needs, and will be marketed and programmed as an outreach space for community and cultural gatherings. VIA envisions this as a tool to expose the architectural profession to the community at large.

The history of the building lends to its own stories to tell. In addition to pursuing USGBC LEED Certification, it is a pilot project for the Sustainable Certification for Preservation through Viridiant of Virginia, and will be the first in the State of Virginia to have accomplished this type of Certification for a Historic Building.

**HARDHATS, CLOSED-TOED SHOES,
PROTECTIVE EYEWARE, AND
SAFETY VESTS ARE REQUIRED.**

REGISTRATION

At the AIAHR.org website Events
Calendar.
