AMERICAN INSTITUTE OF ARCHITECTS Continuing Education System
AIA/CES Registered Provider Program Summary

COURSE DESCRIPTIONS

Understanding *Poly-Ash Trim* and the Other Categories of the Exterior Trim Market – BCI0001 1 LU/HSW

- Identify the various categories and understand the attributes of exterior trim.
- Define the Poly-Ash category of exterior trim.
- Identify key applications and installation guidelines for Poly-Ash products.
- Discuss the sustainable advantages of Poly-Ash trim products.

Synthetic Trim Materials – Emphasis on *Cellular PVC Trim Products* – TTG005 1 LU/HSW

- Identify the advantages of PVC Trim compared to wood and other synthetic trim materials.
- Understand and differentiate between the types of manufacturing processes used to make PVC Trim.
- Recognize how PVC Trim reacts to temperature changes and how to minimize expansion and contraction through proper installation.
- Define Light Reflected Value (LRV) and why it is important when painting PVC Trim.

Understanding *Poly-Ash Siding* and the Other Categories of the Exterior Siding Market – TES001 1 LU/HSW

- Identify the various types of exterior siding and material composition.
- Understand the key attributes of each siding category and installation concerns.
- Define the Poly-Ash category of exterior siding and performance attributes.
- Identify key applications and installation guidelines for Poly-Ash siding.

Engineered Specialty *Composite Cladding* is Here – The Ultimate Replacement for Natural Cedar – TTG006 1 LU/HSW

- Discuss history of how cladding materials have evolved; past, present, and future.
- Discuss options/future considerations of Cladding materials: features, benefits, and concerns of materials.
- Review key installation techniques for various siding materials.
- Provide a qualitative method for comparison/evaluation of specialty siding materials.

Understanding *Mortarless Stone Veneer* and Other Stone Veneer Products – BVERSETTA001 1 LU/HSW

- Identify the various types of stone veneer products and material composition.
- Understand the attributes of manufactured stone veneer products and installation systems.
- Define the mortarless stone veneer category and installation method.
- Identify key applications and installation guidelines for mortarless stone veneer.
