

- **Program No. P317: Wood Window & Door Solutions for Commercial Success: Balancing Performance, Aesthetics & Budget.**
1 AIA/CES LU 1 Contact Hour 1 Hour of Health/Safety/Welfare

Program Description: A detailed analysis and comparison of several different window and door product lines available for use in commercial construction. Offered at varying price points, these comprehensive product lines allow the architect to balance performance, aesthetics, and budget. Topics of discussion include quality considerations, innovative technology, energy efficiency, design flexibility, product performance, exterior finishes and glass technology & performance.
